

STEAMCO

Quality Water Treatment Products and Services

COMPANY OVERVIEW

STEAM-CO is a service and water treatment company based in southeast Georgia. We offer a commitment to service that is unmatched in our industry. We stress quality service, on time reliability and quality products.

STEAM-CO is a member of the Association of Water Technologies, which provides up-to-date information on water treatment for domestic water supplies, boilers, towers and closed-loop systems.

STEAM-CO eREPORTS

Modernize your company's ability to collect, analyze, and access both wet test and controller data with **STEAM-CO eReports**, the leading data logging and analysis software in the water treatment industry. Our software is web-based and is accessible from anywhere simply by using an Internet connection and standards-compliant web browser. Each user has their own account complete with customized security settings that allow them to enter, view, and analyze wet test data results.

24 Hour Service

“DRUMLESS” DELIVERY

The **STEAM-CO** “drumless” delivery system offers the safest method of delivery for water treatment products.

We can help improve plant safety by eliminating the need for your staff to handle potentially hazardous water treatment products.

One of the greatest advantages of the system is the reduction of manpower needed for product delivery and monitoring saving you time and money.

PRETREATMENT EQUIPMENT

Filtration Systems

- Multi-Media
- Sand
- Side Stream
- Filter Housings
- Filter Cartridges

Water Softeners

- Industrial Systems
- Single
- Duplex
- Multi-Tank

Reverse Osmosis

- Design and Installation

Deionized Water

- Sales
- Exchange Units

Liquid Brine

- Bagless Salt Systems

PRODUCTS AND SERVICES

- Boiler Parts
- Cooling Towers
- Parts Replacement
- Treatment Delivery Systems
- Feedwater System Design
- Water Softeners
- Deionizers
- Reverse Osmosis Systems
- Liquid Brine Systems
- Water Treatment Injection
- Environmental Water Collection
- Water Analysis
- Online Reporting

ENGINEERING DATA

- 1 Boiler Horsepower =
4 Gallons / Hour of Water Required
- 1 Boiler Horsepower =
34.5 Pounds of Steam / Hour
- 1 Boiler Horsepower =
33,472 BTU's / Hour
- 1 Therm = 100,000 BTU's
- Natural Gas = 1,000 BTU's / ft³
- #2 Fuel Oil = 140,000 BTU's / Gallon
- 1 Pound of Steam @ 212° F = 970 BTU's
- 1 Gallon / Minute = 500 Pounds / Hour
- Propane = 2,000 BTU's / ft³
- Propane = 91,500 BTU's / Gallon
- 1 Kilowatt = 3,413 BTU's / Hour
- 28" Water Column = 1 PSIG

EMPLOYEE TRAINING

Learn From the Pros!

Maintaining expensive process equipment is more than just purchasing treatment products and hoping they work. Ongoing training and education is the key to understanding how water treatment products interact with your equipment.

STEAM-CO is committed to helping you get the most from your water treatment program. To meet the needs of our wide customer base, **STEAM-CO's** training goes beyond the basics of system functionality. We emphasize the importance of interaction between plant personnel, treatment materials and process equipment. Boiler Academy is a six hour specialized training seminar for boiler room operators.

This **STEAM-CO** presentation is specifically designed for frontline personnel. Boiler Academy focuses on specialized technical topics from boilers to external equipment such as water softeners.
